

NPTEL Week-1 assignment- July 2023

Psychology of Learning

1) Psychologists agree that learning results from ____

- a. running
- b. talking
- c. experience
- d. seeing
- e. reacting

Ans.= c

Solution: Please go through lecture notes of week-1 (slide no.02) for better understanding.

2) Learning is defined as a ____ change in behavior

- a. temporary
- b. large
- c. small
- d. easy
- e. relatively permanent

Ans.= e

Solution: Please go through lecture notes of week-1 (slide no.02) for better understanding.

3) ____ definitions of learning refer to a specific change in mental constructs (e.g., knowledge, representations, associations) of an organism.

- a. Cognitive
- b. Psychodynamic
- c. Experimental
- d. Anthropological
- e. Humanistic

Ans.= a

Solution: Please go through lecture notes of week-1 (slide no.04) for better understanding.

4) Who among the following was one of the first psychologists to study how learning influences behavior?

- a. Carl Jung
- b. John B. Watson
- c. Sigmund Freud

- d. Albert Einstein
- e. Abraham Maslow

Ans.= b

Solution: Please go through lecture notes of week-1 (slide no.07) for better understanding.

5) Which of the following is **not** an outcome of effective learning?

- a. more connected knowledge
- b. more sad and anxious feelings
- c. more reflective approach
- d. more positive emotions
- e. more developed vision of future self as a learner

Ans.= b

Solution: Please go through lecture notes of week-1 (slide no.12) for better understanding.

6) Learning that consists of adding to existing student knowledge is known as ____

- a. conceptual growth
- b. conceptual decline
- c. conceptual change
- d. conceptual decay
- e. conceptual budding

Ans.= a

Solution: Please go through lecture notes of week-1 (slide no.15) for better understanding.

7) What type of feedback to students is important for increasing learning?

- a. Clear, assertive, and delayed
- b. Clear, explanatory, and timely
- c. Ambiguous, explanatory, timely
- d. Strict, assertive, delayed
- e. Clear, harsh, timely

Ans.= b

Solution: Please go through lecture notes of week-1 (slide no.16) for better understanding.

8) Getting used to of something like the ticking of a wall clock is an example of

- a. Sensitization

- b. Conditioning
- c. Meaningful learning
- d. Habituation
- e. Associative learning

Ans.= d

Solution: Please go through lecture notes of week-1 (slide no.19) for better understanding.

9) In ____ learning, special emphasis is placed on exchanges of information as a way of enriching work and the confluence of ideas

- a. associative
- b. observational
- c. emotional
- d. non-associative
- e. cooperative

Ans.= e

Solution: Please go through lecture notes of week-1 (slide no.21-22) for better understanding.

10) ____ is the process of gradually changing the quality of a response.

- a. Modeling
- b. Cueing
- c. Reinforcement
- d. Shaping
- e. Punishment

Ans.= d

Solution: Please go through lecture notes of week-1 (slide no.49) for better understanding.

NPTEL Week-2 assignment- July 2023

Psychology of Learning

1) ____ established the first psychological laboratory at the University of Leipzig in Germany.

- a. Sigmund Freud
- b. Albert Einstein
- c. Wilhelm Wundt
- d. Aristotle
- e. Carl Jung

Ans.= c

Solution: Please go through lecture notes of week-2 (slide no.01) for better understanding.

2) ____ is a theory of learning that uses mind as an information processor, like a computer

- a. Behaviorism
- b. Information Technology
- c. Psychoanalysis
- d. Cognitivism
- e. Motivation

Ans.= d

Solution: Please go through lecture notes of week-2 (slide no.03) for better understanding.

3) According to Gardner's theory of multiple intelligences, ____ intelligence is about self-knowledge and the ability to act adaptively on the basis of that knowledge

- a. Interpersonal
- b. Spatial
- c. Intrapersonal
- d. Linguistic
- e. Musical

Ans.= c

Solution: Please go through lecture notes of week-2 (slide no.15) for better understanding.

4) In the PASS theory of intelligence, PASS stands for ____

- a. Practice, Attention, Selection, Sensation
- b. Planning, Attention-Arousal, Simultaneous and Successive

- c. Processing, Arousal, Simultaneous Selection
- d. Problem solving, Attention, Sensation, Substitution
- e. Perception, Attention, Selection, Sensation

Ans.= b

Solution: Please go through lecture notes of week-2 (slide no.24) for better understanding.

5) Pre-assessment, group based initial instruction, regular formative assessments, corrective instruction, and parallel formative assessments are all components of ____

- a. Mastery learning
- b. Structure of Intellect
- c. Instructional learning
- d. Positive learning
- e. Intelligence

Ans.= a

Solution: Please go through lecture notes of week-2 (slide no.51-55) for better understanding.

6) Which of the following is an approach to learning which suggests that reality is determined by the experiences of the learner?

- a. Constructivism
- b. Cognitivism
- c. Conceptualism
- d. Instructionism
- e. Conceptualization

Ans.= a

Solution: Please go through lecture notes of week-2 (slide no.59) for better understanding.

7) ____ constructivism is based on the work of Lev Vygotsky.

- a. Cognitive
- b. Behavioral
- c. Motivational
- d. Positive
- e. Social

Ans.= e

Solution: Please go through lecture notes of week-2 (slide no.64) for better understanding.

8) Which of the following is **not** a stage of development as given by Piaget?

- a. Preoperational
- b. Formal operational
- c. Sensory-motor
- d. Post operational
- e. Concrete operational

Ans.= d

Solution: Please go through lecture notes of week-2 (slide no.67) for better understanding.

9) According to Vygotsky, ____ is the gap between what a learner can do independently and what they can do with the help of a more knowledgeable other.

- a. knowledge gap
- b. zone of proximal development
- c. zone of intelligence
- d. intelligence gap
- e. zone of knowledge

Ans.= b

Solution: Please go through lecture notes of week-2 (slide no.73 & 76) for better understanding.

10) ____ teaching involves an interactive dialogue between a teacher and a small group of students.

- a. Reciprocal
- b. Instructional
- c. Reinforcing
- d. Corrective
- e. Restricted

Ans.= a

Solution: Please go through lecture notes of week-2 (slide no.77) for better understanding.

NPTEL Week-3 assignment-2023

Psychology of Learning

1) Researchers have long believed that memories form due to changes in the brain ____.

- a. muscles
- b. bones
- c. blood
- d. skull
- e. neurons

Ans.= e

Solution: Please go through lecture notes of week-3 (slide no.02) for better understanding.

2) ____ refers to calling back the stored information in response to some cue for use in a process or activity

- a. Encoding
- b. Storage
- c. Registration
- d. Retrieval
- e. Forgetting

Ans.= d

Solution: Please go through lecture notes of week-3 (slide no.03) for better understanding.

3) The duration of the sensory register is ____

- a. 1-3 seconds
- b. 1-3 minutes
- c. 15-30 seconds
- d. 15-30 minutes
- e. 1 hour

Ans.= a

Solution: Please go through lecture notes of week-3 (slide no.13) for better understanding.

4) Maintenance rehearsal in the context of short term memory is also known as ____

- a. elaborative rehearsal
- b. rote rehearsal
- c. elaborative encoding
- d. dual coding
- e. visual imagery encoding

Ans.= b

Solution: Please go through lecture notes of week-3 (slide no.14) for better understanding.

5) Which of the following is **not** a component of the working memory model?

- a. Central executive
- b. Visuo-spatial sketchpad
- c. Short term memory
- d. Episodic buffer
- e. Phonological loop

Ans.= c

Solution: Please go through lecture notes of week-3 (slide no.26-27) for better understanding.

6) ____ describes our implicit knowledge of tasks that usually do not require conscious recall to perform them

- a. Procedural memory
- b. Declarative memory
- c. Semantic memory
- d. Episodic memory
- e. Collective memory

Ans.= a

Solution: Please go through lecture notes of week-3 (slide no.31) for better understanding.

7) The Levels of Processing theory in memory is given by ____

- a. Atkinson & Shiffrin
- b. Craik & Lockhart
- c. Baddley
- d. Piaget
- e. Freud

Ans.= b

Solution: Please go through lecture notes of week-3 (slide no.32) for better understanding.

8) ____ processing is when we encode only the physical qualities of something.

- a. Phonemic
- b. Structural
- c. Semantic
- d. Deep
- e. Elaborative

Ans.= b

Solution: Please go through lecture notes of week-3 (slide no.33) for better understanding.

9) ____ refers to the cognitive capacity actually allocated to the task.

- a. Mental load
- b. Mental effort
- c. Performance
- d. Capacity load
- e. Task load

Ans.= b

Solution: Please go through lecture notes of week-3 (slide no.44) for better understanding.

10) Which of the following is **not** a helpful way of improving memory?

- a. Writing it down
- b. Repetition
- c. Taking a mental picture
- d. Over-exerting yourself
- e. Attaching meaning to it

Ans.= d

Solution: Please go through lecture notes of week-3 (slide no.49-50) for better understanding.

NPTEL Week-4 assignment- July 2023

Psychology of Learning

1) When there are many possible answers to a solution, we rely on ____ to help us choose the best solution, like trying to answer or solve an open-ended question

- a. luck
- b. [divergent thinking](#)
- c. remembering
- d. sensory memory
- e. symbolic thinking

Ans.= b

[Solution: Please go through lecture notes of week-4 \(slide no.03\) for better understanding.](#)

2) ____ are representative items within each concept.

- a. Imaginations
- b. Focuses
- c. Architectures
- d. [Prototypes](#)
- e. Images

Ans.= d

[Solution: Please go through lecture notes of week-4 \(slide no.04\) for better understanding.](#)

3) Cognitive, affective, and psychomotor are three learning domains as given by ____

- a. Cognitive architectures
- b. Maslow's hierarchy
- c. [Bloom's Taxonomy](#)
- d. Propositions
- e. Working memory theory

Ans.= c

[Solution: Please go through lecture notes of week-4 \(slide no.12\) for better understanding.](#)

4) ____ knowledge defines knowledge about own knowledge or self-knowledge

- a. Factual
- b. [Metacognitive](#)
- c. Cognitive
- d. Procedural

e. Conceptual

Ans.= b

Solution: Please go through lecture notes of week-4 (slide no.18) for better understanding.

5) ____ is the ability to collect and analyze information to come to a conclusion.

- a. Critical thinking
- b. Metacognition
- c. Intuition
- d. Affective thinking
- e. Learning

Ans.= a

Solution: Please go through lecture notes of week-4 (slide no.29) for better understanding.

6) 'Think out of the box' refers to which of the following?

- a. Creative thinking
- b. Critical thinking
- c. Reflective thinking
- d. Analytical thinking
- e. Metacognition

Ans.= a

Solution: Please go through lecture notes of week-4 (slide no.45) for better understanding.

7) Which of the following is **not** a stage of the creative thinking process?

- a. Elaboration
- b. Evaluation
- c. Preparation
- d. Insight
- e. Information

Ans.= e

Solution: Please go through lecture notes of week-4 (slide no.49) for better understanding.

8) ____ is a method of problem solving in which possible solutions are tried until one is successful.

- a. Analogy

- b. Trial and error
- c. Chance
- d. Algorithm
- e. Creativity

Ans.= b

Solution: Please go through lecture notes of week-4 (slide no.51) for better understanding.

9) In the traditional approach to learning, a student's role is ____

- a. passive
- b. active
- c. experiential
- d. absent
- e. unrecognized

Ans.= a

Solution: Please go through lecture notes of week-4 (slide no.59) for better understanding.

10) ____ are versatile graphic organizers that can represent many different forms of relationships between concepts.

- a. Prototypes
- b. Concepts
- c. Emotional maps
- d. Cognitive aids
- e. Cognitive maps

Ans.= e

Solution: Please go through lecture notes of week-4 (slide no.68) for better understanding.

NPTEL Week-5 assignment-2023

Psychology of Learning

1) Which of the following is not a major component of motivation?

- a. Activation
- b. Confusion
- c. Persistence
- d. Intensity
- e. Direction

Ans.= b

Solution: Please go through lecture notes of week-5 (slide no.03-05) for better understanding.

2) ____ refers to doing something or behaving well because one feels an internal pressure to do so.

- a. Identified regulation
- b. Amotivation
- c. Introjected regulation
- d. Curiosity
- e. Motivational learning

Ans.= c

Solution: Please go through lecture notes of week-5 (slide no.06) for better understanding.

3) ____ drives are often referred to as 'tertiary drives'.

- a. Biological
- b. Psychological
- c. Social
- d. Hunger
- e. None of the above

Ans.= c

Solution: Please go through lecture notes of week-5 (slide no.11) for better understanding.

4) Incentive theory of motivation is based on the concept of ____

- a. Operant conditioning
- b. Classical conditioning
- c. Memory
- d. Forgetting
- e. Drive theory

Ans.= a

Solution: Please go through lecture notes of week-5 (slide no.13) for better understanding.

5) The Yerkes Dodson law gives a relationship between ____ and ____

- a. arousal, performance
- b. intelligence, stress
- c. stress, happiness
- d. learning, marks
- e. None of the above

Ans.= a

Solution: Please go through lecture notes of week-5 (slide no.16-18) for better understanding.

6) The letter 'M' in the acronym 'SMART' used in the context of goal setting stands for ____

- a. measurable
- b. microscopic
- c. maintained
- d. motivated
- e. none of the above

Ans.= a

Solution: Please go through lecture notes of week-5 (slide no.23-26) for better understanding.

7) Maslow's need hierarchy has ____ number of stages.

- a. Two
- b. Three
- c. Seven
- d. Four
- e. Five

Ans.= e

Solution: Please go through lecture notes of week-5 (slide no.28-31) for better understanding.

8) What are the three psychological needs highlighted by the self determination theory?

- a. Autonomy, Comfort, Rationalization
- b. Autonomy, Competence, Relatedness
- c. Attention, Comfort, Relationship
- d. Attention, Competence, Relationship
- e. None of the above

Ans.= b

Solution: Please go through lecture notes of week-5 (slide no.37-39) for better understanding.

9) Which of the following is not an example of esteem needs in the context of Maslow's hierarchy?

- a. sleep
- b. achievement
- c. education
- d. respect
- e. competence

Ans.= a

Solution: Please go through lecture notes of week-5 (slide no.28-31) for better understanding.

10) Achievement motivation stems from two needs: need to achieve and need to ____

- a. enjoy
- b. relax
- c. avoid failure
- d. be respected
- e. seek attention

Ans.= c

Solution: Please go through lecture notes of week-5 (slide no.40-43) for better understanding.

NPTEL Week-6 assignment-2023

Psychology of Learning

1) Who among the following is given major credit for the popularization of the term 'Emotional Intelligence'?

- a. Dr. Abraham Maslow
- b. Dr. Carl Jung
- c. Dr. Daniel Goleman
- d. Dr. John Mayer
- e. Dr. Sigmund Freud

Ans.= c

Solution: Please go through lecture notes of week-6 (slide no.01-04) for better understanding.

2) Which of the following is not a component of emotional intelligence?

- a. Self-awareness
- b. Self-regulation
- c. Knowledge
- d. Motivation
- e. Empathy

Ans.= c

Solution: Please go through lecture notes of week-6 (slide no.04-08) for better understanding.

3) ____ refers to the ability of putting words to feelings.

- a. Emotional literacy
- b. Emotional testing
- c. Social knowledge
- d. Emotional ability
- e. Emotional aptitude

Ans.= a

Solution: Please go through lecture notes of week-6 (slide no.04-06) for better understanding.

4) The following are signs of emotional intelligence, except

- a. The ability to let go of mistakes
- b. Feelings of empathy and concern for others
- c. An awareness of personal strengths and limitations
- d. Self-confidence and self-acceptance
- e. Not taking responsibility for one's mistakes

Ans.= e

Solution: Please go through lecture notes of week-6 (slide no.07-10) for better understanding.

5) According to Hochschild, the ____ are attempts by organizations to control employees' inner lives or thoughts and feelings; e.g. in the case of flight attendants.

- a. feeling rules
- b. emotional syntax
- c. emotional norms
- d. feeling norms
- e. None of the above

Ans.= a

Solution: Please go through lecture notes of week-6 (slide no.25-28) for better understanding.

6) ____ occurs when someone's emotions and related behaviors lead to similar emotions and behaviors in others.

- a. Deep acting
- b. Emotional domino
- c. Surface acting
- d. Emotional contagion
- e. Emotional norms

Ans.= d

Solution: Please go through lecture notes of week-6 (slide no.31-33) for better understanding.

7) The biological explanation of emotional contagion can be through the existence of ____.

- a. emotional neurons
- b. emotional nerves
- c. feeling neurons
- d. heart
- e. mirror neurons

Ans.= e

Solution: Please go through lecture notes of week-6 (slide no.33-35) for better understanding.

8) Which of the following is not one of three main areas of general creativity?

- a. nonverbal and verbal creativity
- b. biological creativity
- c. creativity in problem solving
- d. emotional creativity

Ans.= b

Solution: Please go through lecture notes of week-6 (slide no.35-39) for better understanding.

9) 'A breakup gives rise to song lyrics' is an example of how ____

- a. emotions can inspire creativity
- b. heartbreak can inspire emotional intelligence
- c. emotional intelligence is lowered
- d. none of the above

Ans.= a

Solution: Please go through lecture notes of week-6 (slide no.38-40) for better understanding.

10) Which of the following is false?

- a. Emotional intelligence can predict academic performance and workplace success
- b. Meditation or journal keeping can be effective strategies to improve self-awareness
- c. Emotional intelligence cannot be learnt or improved through training; it is genetic.
- d. Improving communication skills aids in improving conflict resolution.
- e. None of the above

Ans.= c

Solution: Please go through lecture notes of week-6 (slide no.16-24) for better understanding.

NPTEL Week-7 assignment-2023

Psychology of Learning

1) Which of the following is not a component of Benjamin S. Bloom's taxonomy of educational objectives?

- a. Cognitive
- b. Affective
- c. Psychomotor
- d. Biological
- e. None of the above

Ans.= d

Solution: Please go through lecture notes of week-7 (slide no.04-06) for better understanding.

2) Which of the following is not included in the major schools of learning theories?

- a. Behaviorist orientation
- b. Cognitive orientation
- c. Humanistic orientation
- d. Social and social-constructivist orientations
- e. Biological and evolutionary orientation

Ans.= e

Solution: Please go through lecture notes of week-7 (slide no.07-10) for better understanding.

3) Which of the following affect learning?

- a. Task variables
- b. Environmental variables
- c. Individual variables
- d. All of the above

Ans.= d

Solution: Please go through lecture notes of week-7 (slide no.12-15) for better understanding.

4) Which of the following is not a task variable?

- a. Trainer's competence
- b. Communication gap
- c. Rationality
- d. Task overload
- e. Learning capabilities

Ans.= e

Solution: Please go through lecture notes of week-7 (slide no.13-15) for better understanding.

5) ____ learning refers to learning that gets students to learn through doing; such as experimentation and play

- a. Active
- b. Passive
- c. Deep
- d. Shallow
- e. None of the above

Ans.= a

Solution: Please go through lecture notes of week-7 (slide no.14-16) for better understanding.

6) ____ learners favor educational lessons that include peer work or participation.

- a. Social/linguistic
- b. Solitary
- c. Kinesthetic
- d. Auditory
- e. Visual

Ans.= a

Solution: Please go through lecture notes of week-7 (slide no.16-20) for better understanding.

7) Which of the following is not true for effective instruction?

- a. It is interactive
- b. It is eclectic
- c. It is generative and dynamic
- d. It incorporates components of core curriculum
- e. It is independent of the success of the learning experience

Ans.= e

Solution: Please go through lecture notes of week-7 (slide no.20-25) for better understanding.

8) The following are principles of instruction given by Merrill, except ____

- a. Activation
- b. Formation
- c. Demonstration
- d. Integration
- e. Application

Ans.= b

Solution: Please go through lecture notes of week-7 (slide no.24-30) for better understanding.

9) Which of the following is a principle of Instructional Systems Design (ISD)?

- a. It should move at an efficient pace
- b. It should keep information outside of context
- c. It should be independent of the community
- d. It should create opportunities for learners to replicate past work and output

Ans.= a

Solution: Please go through lecture notes of week-7 (slide no.27-32) for better understanding.

10) According to Ausubel, ____ occurs when new information is integrated into existing knowledge structures, also known as mental schemas.

- a. structural learning
- b. mental learning
- c. meaningful learning
- d. integrative learning
- e. None of the above

Ans.= c

Solution: Please go through lecture notes of week-7 (slide no.40-45) for better understanding.

NPTEL Week-8 assignment-2023

Psychology of Learning

1) Which of the following is not a pedagogical approach in teaching?

- a. Collaborative approach
- b. Inquiry-based approach
- c. Constructivist approach
- d. Refractive approach
- e. Integrative approach

Ans.= d

Solution: Please go through lecture notes of week-8 (slide no.06-10) for better understanding.

2) Constructivism with respect to learning suggests that ____

- a. the role of learners is passive
- b. learners are the makers of meaning and knowledge
- c. facilitators are the makers of meaning and knowledge
- d. internet is the maker of meaning and knowledge
- e. none of the above

Ans.= b

Solution: Please go through lecture notes of week-8 (slide no.06-10) for better understanding.

3) Which of the following is false about pedagogy in education and learning?

- a. Effective pedagogies are an amalgamation of various teaching techniques
- b. Pedagogy is based on a facilitator-centered approach
- c. Pedagogy allows teachers to evaluate individual students' performance regularly
- d. Pedagogy allows students to meet like-minded people and learn from their peers
- e. None of the above

Ans.= b

Solution: Please go through lecture notes of week-8 (slide no.10-15) for better understanding.

4) Which of the following is not a major component of the experiential learning process?

- a. Generalizing
- b. Experiencing
- c. Analyzing
- d. Sharing
- e. Overthinking
- f. Applying

Ans.= e

Solution: Please go through lecture notes of week-8 (slide no.15-18) for better understanding.

5) David Kolb's experiential learning style theory typically suggests ____ number of stages in the experiential learning cycle.

- a. Four
- b. Nine
- c. Fifteen
- d. Seven
- e. None of the above

Ans.= a

Solution: Please go through lecture notes of week-8 (slide no.19-22) for better understanding.

6) The stages of the experiential learning cycle given by Kolb are dissected by two continuums relating to perception and ____.

- a. emotion
- b. motivation
- c. processing
- d. perseveration
- e. none of the above

Ans.= c

Solution: Please go through lecture notes of week-8 (slide no.20-25) for better understanding.

7) The ____ learning style as given by Kolb suggests that these individuals prefer technical tasks and like to be left alone to solve them.

- a. Assimilating
- b. Accommodating
- c. Diverging
- d. Converging

Ans.= d

Solution: Please go through lecture notes of week-8 (slide no.22-25) for better understanding.

8) The model of multimedia learning is based upon some primary assumptions as given by Mayer that are mentioned below. Which of the following is false?

- a. Visual and auditory experiences/information are processed through separate and distinct information processing 'channels'
- b. Each information processing channel is limited in its ability to process experience/information

- c. Processing experience/information in channels is an active cognitive process designed to construct coherent mental representations
- d. None of the above

Ans.= d

Solution: Please go through lecture notes of week-8 (slide no.38-42) for better understanding.

9) The ____ principle of multimedia learning suggests that students learn better when corresponding words and pictures are presented simultaneously rather than successively

- a. temporal contiguity
- b. spatial contiguity
- c. modality
- d. coherence
- e. redundancy

Ans.= a

Solution: Please go through lecture notes of week-8 (slide no.40-45) for better understanding.

10) Mezirow(1978) identified ____ number of steps that are required for transformative learning to occur.

- a. Four
- b. Five
- c. Seven
- d. Ten
- e. Thirteen

Ans.= d

Solution: Please go through lecture notes of week-8 (slide no.54-60) for better understanding.

NPTEL Week-9 assignment-2023

Psychology of Learning

1) Which of the following is not a feature of e-learning?

- a. individualization
- b. accessibility
- c. personalization
- d. stereotypical
- e. social justice

Ans.= d

Solution: Please go through lecture notes of week-9 (slide no.02) for better understanding.

2) Many students in the context of a digital classroom regard knowledge of ____ as more important than 'what'.

- a. 'who'
- b. 'why not'
- c. 'where'
- d. 'how to'
- e. none of the above

Ans.= d

Solution: Please go through lecture notes of week-9 (slide no.02-03) for better understanding.

3) Which of the following is not a benefit of e-learning?

- a. It accommodates everybody's needs
- b. It is self-paced
- c. It is motivating and interactive
- d. It is scalable
- e. None of the above

Ans.= e

Solution: Please go through lecture notes of week-9 (slide no.05-08) for better understanding.

4) When we are learning or practicing something, our brain ____

- a. does not do anything
- b. releases hormones
- c. builds strong connections between the muscles and bones
- d. builds strong connections between neurons

Ans.= d

Solution: Please go through lecture notes of week-9 (slide no.14-15) for better understanding.

5) The ____ theory suggests that when we overload our working memory, we are unable to acquire and process new information.

- a. cognitive load
- b. emotional labor
- c. memory
- d. psychological stress
- e. None of the above

Ans.= a

Solution: Please go through lecture notes of week-9 (slide no.16-18) for better understanding.

6) The brain often benefits from physically writing in a notebook since it contributes to _____. Learners during e-learning are hence often advised to take notes.

- a. emotion
- b. motivation
- c. encoding
- d. forgetting
- e. decoding

Ans.= c

Solution: Please go through lecture notes of week-9 (slide no.18-20) for better understanding.

7) In the context of virtual learning, ____ refers to the speed and ease with which a novice user can achieve proficiency with the system.

- a. Efficiency
- b. Memorability
- c. Novice index
- d. Learnability
- e. None of the above

Ans.= d

Solution: Please go through lecture notes of week-9 (slide no.22-25) for better understanding.

8) Which of the following is not a critical factor that impacts e-learning?

- a. Motivation
- b. Self-discipline
- c. Stress
- d. Social skills
- e. Genes

Ans.= e

Solution: Please go through lecture notes of week-9 (slide no.32-35) for better understanding.

9) In the context of instructional design, ____ refers to learners' automatic performance on specific procedures with predetermined steps to be followed.

- a. chaining
- b. association
- c. discrimination
- d. none of the above

Ans.= a

Solution: Please go through lecture notes of week-9 (slide no.35-40) for better understanding.

10) ____ provides the context to learners in the form of simulated job-related situations where learners have to judge a situation, use the information they have at hand, and make the best possible choice to solve the problem.

- a. Problem-focused e-learning
- b. Scenario-based e-learning
- c. Guided e-learning
- d. None of the above

Ans.= b

Solution: Please go through lecture notes of week-9 (slide no.74-78) for better understanding.

NPTEL Week-10 assignment-2023

Psychology of Learning

1) Which of the following is not an essential skill needed for today's teacher (post pandemic era)

- a. digital skills
- b. communication
- c. life skills
- d. non-inclusive education
- e. participate education

Ans.= d

Solution: Please go through lecture notes of week-10 (slide no.05-07) for better understanding.

2) The following psychological principles about how students think and learn are true except

-
- a. Students' cognitive development and learning is not limited by the general stages of development
 - b. Students existing knowledge is not related to and does not impact their present learning
 - c. The beliefs or perceptions students have about their intelligence and ability affect their learning and cognitive functioning
 - d. Learning is context-based

Ans.= b

Solution: Please go through lecture notes of week-10 (slide no.10-12) for better understanding.

3) Which of the following is true regarding the social and emotional learning of students?

- a. Learning is situated in a single isolated social context
- b. Interpersonal relationships are unimportant for development of students
- c. Emotional well-being impacts students' educational performance
- d. None of the above

Ans.= c

Solution: Please go through lecture notes of week-10 (slide no.14-15) for better understanding.

4) Learners who have a ____ believe that intelligence is malleable and success is related to effort level

- a. communication
- b. academic intelligence
- c. fixed mindset
- d. intelligent mindset
- e. growth mindset

Ans.= e

Solution: Please go through lecture notes of week-10 (slide no.21-22) for better understanding.

5) Acquiring long-term knowledge and skill is largely dependent on ____

- a. practice
- b. good luck
- c. genes
- d. money
- e. None of the above

Ans.= a

Solution: Please go through lecture notes of week-10 (slide no.23-24) for better understanding.

6) Use of ____ goals increase self-efficacy and competency towards larger goals.

- a. ambiguous
- b. extremely challenging
- c. extremely non-challenging
- d. proximal
- e. none of the above

Ans.= d

Solution: Please go through lecture notes of week-10 (slide no.27-29) for better understanding.

7) The following are examples of formative assessment except ____

- a. anecdotal records
- b. essays
- c. lab reports
- d. entrance tests

Ans.= d

Solution: Please go through lecture notes of week-10 (slide no.42-26) for better understanding.

8) Summative assessment is conducted ____

- a. during instruction
- b. before instruction
- c. before and during instruction
- d. after instruction

Ans.= d

Solution: Please go through lecture notes of week-10 (slide no.48-49) for better understanding.

9) Which of the following is not an appropriate principle of good feedback practice?

- a. Aims to hamper self-reflection
- b. Provides opportunities to close the gap between current and desired performance
- c. Helps clarify what good performance is
- d. Provides information to teachers that can be used to help shape the teaching
- e. Encourages positive motivational beliefs and self-esteem

Ans.= a

Solution: Please go through lecture notes of week-10 (slide no.55-57) for better understanding.

10) Which of the following is not one of the levels of feedback?

- a. Task-level
- b. Process-level
- c. Facilitator-level
- d. Personal-level

Ans.= c

Solution: Please go through lecture notes of week-10 (slide no.76-78) for better understanding.

NPTEL Week-11 assignment-2023

Psychology of Learning

1) ____ refer to people's mental representations of social patterns and norms.

- a. social images
- b. emotional images
- c. social schemes
- d. social schemas
- e. emotional schemas

Ans.= d

Solution: Please go through lecture notes of week-11 (slide no.05-06) for better understanding.

2) Researchers study various topics like the following using the social cognitive perspective, except ____

- a. Attitudes
- b. Discrimination
- c. Decision making
- d. Persuasion
- e. Mechanics

Ans.= e

Solution: Please go through lecture notes of week-11 (slide no.05-07) for better understanding.

3) Social cognition develops in ____

- a. childhood and adolescence
- b. adolescence and adulthood
- c. after retirement
- d. after death
- e. none of the above

Ans.= a

Solution: Please go through lecture notes of week-11 (slide no.06-07) for better understanding.

4) ____ refers to a person's ability to understand and think about the mental states of other people.

- a. social schema
- b. modeling
- c. observational learning
- d. social smartness
- e. theory of mind

Ans.= e

Solution: Please go through lecture notes of week-11 (slide no.07-09) for better understanding.

5)

Observational learning occurs through a sequence of four processes. Which of the following is not one of them?

- a. retention processes
- b. production processes
- c. emotional processes
- d. attentional processes
- e. motivational processes

Ans.= c

Solution: Please go through lecture notes of week-11 (slide no.13-15) for better understanding.

6)

The ____ model by Bandura involves real or fictional characters displaying behaviors in books, films, television programs, or online media.

- a. verbal instructional
- b. live
- c. fictional
- d. symbolic
- e. none of the above

Ans.= d

Solution: Please go through lecture notes of week-11 (slide no.15-16) for better understanding.

7)

Reciprocal determinism refers to the dynamic and reciprocal interaction of the following, except ____

- a. person
- b. environment
- c. behavior
- d. weather

Ans.= d

Solution: Please go through lecture notes of week-11 (slide no.21-22) for better understanding.

8)

An increased perception of social presence can lead to an increased task performance in multimedia learning environments. This is called ____.

- a. [social facilitation](#)
- b. interaction hypothesis
- c. cognitive conflict
- d. social validation
- e. none of the above

Ans.= a

Solution: Please go through lecture notes of week-11 (slide no.28-30) for better understanding.

9) According to Bandura, which of the following is not one of the major sources of self-efficacy?

- a. [genetic modeling](#)
- b. social modeling
- c. social persuasion
- d. psychological responses
- e. mastery experiences

Ans.= a

Solution: Please go through lecture notes of week-11 (slide no.36-38) for better understanding.

10)

In the context of Johari window, ____ is the area that is known to yourself but is hidden from others.

- a. Task-level
- b. arena
- c. [facade](#)
- d. unknown
- e. none of the above

Ans.= c

Solution: Please go through lecture notes of week-11 (slide no.48-50) for better understanding.

NPTEL Week-12 assignment-2023

Psychology of Learning

1) In the history of sustainable development, it was the solution to the problems of ____ in 1987.

- a. poverty
- b. gender-based discrimination
- c. education
- d. environmental degradation
- e. none of the above

Ans.= d

Solution: Please go through lecture notes of week-12 (slide no.04-05) for better understanding.

2) Business ethics and human rights are components of ____

- a. environmental sustainability
- b. economic sustainability
- c. emotional sustainability
- d. financial sustainability
- e. social sustainability

Ans.= e

Solution: Please go through lecture notes of week-12 (slide no.05-07) for better understanding.

3) Which of the following is not a primary goal of sustainability?

- a. fostering corruption
- b. end to poverty
- c. quality education
- d. gender equality
- e. economic growth

Ans.= a

Solution: Please go through lecture notes of week-12 (slide no.08-09) for better understanding.

4) In the context of sustainability, HESI stands for

- a. Higher economic sustainability initiative
- b. Higher engagement sustainability initiative
- c. Higher education sustainability initiative
- d. none of the above

Ans.= c

Solution: Please go through lecture notes of week-12 (slide no.12-13) for better understanding.

5) The following are the means of implementation of SDG 4, except ____

- a. effective learning environments
- b. scholarships
- c. international trips
- d. teachers and educators

Ans.= c

Solution: Please go through lecture notes of week-12 (slide no.15-16) for better understanding.

6) Which of the following is not a key competency of sustainability?

- a. self-awareness
- b. collaboration
- c. stereotypical
- d. strategic

Ans.= c

Solution: Please go through lecture notes of week-12 (slide no.26-27) for better understanding.

7)

Fostering sustainability competencies requires integration of three interrelated dimensions of learning as described by UNESCO. Which of the following is not one of them?

- a. cognitive learning
- b. social and emotional learning
- c. behavioral learning
- d. biological learning

Ans.= d

Solution: Please go through lecture notes of week-12 (slide no.27-28) for better understanding.

8)

____ refers to the ability to collectively develop and implement innovative actions that further sustainability at the local level and further a field;

- a. strategic competency
- b. collaboration competency
- c. normative competency
- d. anticipatory competency
- e. none of the above

Ans.= a

Solution: Please go through lecture notes of week-12 (slide no.55-57) for better understanding.

9)

According to the sustainable education model, which of the following is not a key driver or vital component of it?

- a. parliament
- b. profit
- c. people
- d. planet

Ans.= a

Solution: Please go through lecture notes of week-12 (slide no.64-65) for better understanding.

10)

In 2022, the European Commission published a taxonomy (classification system) of skills for the green transition in the multilingual classification of Skills, Competences, Qualifications and Occupations (ESCO) which includes ____ number of skills.

- a. 2
- b. 102
- c. 381
- d. 467
- e. none of the above

Ans.= c

Solution: Please go through lecture notes of week-1 (slide no.48-50) for better understanding.
