Following 7 Attributes have been decided as benchmark.

1. Courtesy
2. Kindness
3. Tolerance
4. Swadhyay
5. Shraddha
6. Self-discipline
7. Clarity of aim of life

Everyone will evaluate himself/herself on these benchmarks. They will see how much progress they have done on these criteria during the semester and accordingly they will assign marks to themselves out of 10.

3. Assessment by peers: 10 marks

The above 7 attributes have been decided as benchmark for peer evaluation also. A total of 65 students of my class have been divided in 13 groups with 5 members in each group. Randomly each group has been assigned one group for peer evaluation. Each member of the group will evaluate every member of the assigned group. Then a composite marks for every member of the assigned group will be sent by the group who is doing the peer evaluation.

4. Socially relevant project/Group Activities/Assignments: 20 marks

A total of 65 students of my class have been divided in 13 groups with 5 members in each group. (same groups as above). All 13 groups have submitted proposals for group activity. They will carry out work as per the proposals and make the presentations. This will be the basis for 20 marks evaluation.

5. Semester End Examination: 50 marks

Teachers will frame situation/case study-based questions based on the course material. A common question paper will be decided based on the inputs from all the concerned teachers.
